## Explanation

The individual issuing department, bureau, office, or agency is considered the publisher of Government publications.

Words and figures enclosed in brackets [ ] are given for information, but do not appear on the title pages of the publications cataloged. Place and printer are not given for publications printed at the United States Government Printing Office, Washington, D.C. Size is not given for octavo publications. Size of maps is approximate, measurement being made from outer edge of border, excluding margin. The dates given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays.

The word "processed" as used in this catalog indicates publications which are reproduced by duplicating processes other than ordinary printing, e.g., mimeograph, multigraph, planograph, rotaprint, multilith. Processed publications are not obtainable from the Superintendent of Documents. Requests for them, if they are available, should be addressed to the issuing office or to the Office of Technical Services, as indicated by the distribution symbol.

Under provisions of the Printing Act of January 12, 1895, all Government publications are entered in the Monthly Catalog. However, administrative and confidential (or restricted) publications are omitted.

The L.C. card number appended to some of the entries is for those libraries ordering printed cards from the Library of Congress. The number at the extreme right of an entry indicates the classification of the publication in the Office of the Superintendent of Documents.

# General Information

The Superintendent of Documents, Government Printing Office, Washington, D.C., is authorized by law to sell copies of Government publications and to allow a discount of 25 percent to book dealers and also to quantity purchasers of 100 or more copies of a single publication on condition that they will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be overprinted with any advertising matter.

Publications cannot be supplied free to individuals nor forwarded in advance of payment.

## PRICE LIST

There is no general price list of public documents, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, by subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

## LIST OF SELECTED PUBLICATIONS

In addition to the price lists, the Documents Office issues a biweekly list of Selected United States Government publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

## CONGRESSIONAL BILLS, DOCUMENTS, AND REPORTS

More than 12,000 different bills are usually introduced during a Congress, and there are additional prints on many during the progress of the legislation. With the exception of a very few—such as revenue bills—the demand is an unknown quantity and on most of them we receive no orders, which makes it impossible to print a sales supply. It may be that a copy could be obtained from your Congressman.

A difficult problem is also presented in providing a supply of congressional documents, hearings, and reports because there are approximately 6,000 of this class of publications issued during a Congress and only a few of them are called for. We will attempt to print for sale a few of the more important ones, but if not priced the only possible source would be from your Congressman.

## HOW TO ORDER PUBLICATIONS

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by an asterisk (\*) preceding the price. Those for sale by the Office of Technical Services, Commerce Department, are indicated by a farad (Φ) preceding the price. A black dot (●) indicates that the publication has been or will be sent to depository libraries. A dagger (†) indicates that application should be made to the department, bureau, or agency issuing the document. A double dagger (‡) indicates that the document is printed for official use and is not obtainable. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing department, bureau, or agency, and the title, together with the classification number which is added to the entry at the extreme right; order the congressional documents and reports by the title, together with the document or report number and the Congress, e.g., H. doc. 108, 82d Congress.

Do not use the L.C. card number in ordering a publication from the Superintendent of Documents.

### HOW TO REMIT

Remittances for documents marked with an asterisk (\*) should be made to the Superintendent of Documents, U.S. Government Printing Office, Washington 25, D.C., by coupon, postal money order, express order, or check. Publications cannot be mailed in advance of receipt of remittance. Currency may be sent at sender's risk. Foreign remittances should be made either by international money order or draft on an American bank.

*Foreign money, defaced or smooth coins, will not be accepted. Do not send postage stamps.*

For the convenience of the general public, coupons in the denomination of 5c that are good until used in exchange for Government publications sold by the Superintendent of Documents, may be purchased from this office. Address order to Superintendent of Documents, Government Printing Office, Washington 25, D.C.

Persons who make frequent purchases from the Superintendent of Documents may find a deposit account convenient. Deposits of \$25.00 or more are accepted against which orders may be placed without making individual remittances or first obtaining quotations. Order blanks are furnished for this purpose. After the handling of the order has been completed, it will be returned showing the publications supplied, explanations regarding those not sent, the amount of charge, and the balance on deposit.

No charge is made for postage on documents forwarded to points in United States and possessions, or to Canada, Cuba, Mexico, and certain Central and South American countries. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-fourth of the price of the publication.

### LIBRARY CLASSIFICATION IN DOCUMENTS OFFICE

The classification given at the right of entries for departmental publications is that used in the Library of the Division of Public Documents. It is also used as a catalog number for sales stock of this office. The shilling mark (/) separates what would ordinarily be superior or inferior numbers or letters, as it is not practicable to print these numbers or letters as superiors or inferiors in the Monthly Catalog.

# New Classification Numbers Assigned January-December 1960

NOTE.—New classes appearing for the first time in this issue of the Monthly Catalog are listed in bold face type.

D 1.12:

NOTE.—These specifications are now so completely covered by the Military Index, volumes 2, 3, and 4, published by the Army, the Navy, and the Air Force, semi-annually and kept current by cumulative supplements, that listing in the Monthly Catalog of United States Government Publications represents unnecessary and wasteful duplication of effort. For that reason they will no longer be listed.

Complete information on the three indexes of specifications will be found in the May 1960 Monthly Catalog under Entry number 7590 and in the August 1960 Monthly Catalog under Entry numbers 10545, 10561, and 12543.

18514 Federal specifications. Item 503 GS 2.8:  
NOTE.—These specifications are now so completely covered by the Index of Federal specifications, standards, and handbooks with cumulative monthly supplements, that listing in the Monthly Catalog of United States Government Publications represents unnecessary and wasteful duplication of effort. For that reason they will no longer be listed.  
Complete information on the Index of Federal specifications will be found in the June 1960 Monthly Catalog under Entry number 8396 and in the August 1960 Monthly Catalog under Entry number 12159.

Irrigation projects, see Reclamation of land—also names of reclamation projects.	
IRT, see Reactors (atomic).	
IS series:	
Post Office Department.....	1261, 4371-72, 8914-15, 10353, 14658-659, 16172-175.
Veterans Administration.....	4444, 10461
Isentropic compressibility of aluminum, copper, lead and iron at high pressures, USSR.....	17630
Island lantern (periodical).....	3098, 12466
Islands, see Pacific Islands—also names of islands.	
Isle Royale National Park, general information.....	1204
Isomers:	
hexane, processes occurring during spontaneous ignition, study.....	10332
isomerization of radical and introduction of double bond, effect on rate of isotope exchange of alkyl halide with halide ions, USSR study.....	9946
nuclear, tellurium, mercury, and tin, separation, USSR study.....	9960
tetranitroalkanes, isomerization, USSR study.....	14343
Isoptera, see Termites.	
Isothermal dispersion of gas cloud, USSR.....	14407
Isotopes:	
calibration of 5 gamma-emitting nuclides for emission rate.....	19169
chemistry and separation, USSR study.....	11374
exchange—	
between gaseous oxygen and salts of some acids containing oxygen at high temperatures, USSR study.....	10030
effect of molecular structure on velocity of ionic and atomic reactions, USSR study.....	9946, 15562
influence of molecular structure on velocity of ionic and atomic reactions, USSR study.....	14064
method for measuring saturated vapor pressure and diffusion coefficients, USSR study.....	14066
process between solid body and reactions, USSR study.....	14064
radiochemistry and radiation chemistry, USSR study.....	15815
reactions of hydrogen, thermodynamic and kinetic features, USSR study.....	17490
substituting atoms of hydrogen in CH <sub>3</sub> Br molecule with atoms of bromine, effect, USSR study.....	9963

Isotopes—Continued	
industrial applications and techniques, literature search.....	1485
industrial uses, Midwestern conference.....	4710
kinetics of exchange, USSR study.....	8530
pipeline construction work, improving conditions, USSR study.....	17463
radioactive—	
and radiations, Belorussian Republic scientific-technical conference on use of, in national economy and science, report.....	2022
elimination from organism, acceleration under effect of complex-forming compounds, USSR study.....	4099
prospects of using in metallurgy and other technical sciences, USSR study.....	14309
with food, method of tagging insects, USSR study.....	8514
radiography manual.....	10389
Radioisotope Laboratory, Timiryazev Agricultural Academy, USSR.....	10012
radioisotopes—	
agriculture, conference Apr. 2 and 3, 1959.....	4711
evaluation of linear scanner in localizing human distribution—expanding utilization in food toxicology and processing.....	217
internally deposited, late somatic effects.....	4628
use as power sources, literature search.....	1486
use in medicine since liberation, Communist China.....	5506
use in science and industry.....	6307
scanning of thyroid gland, manual separation—	11670
by gaseous diffusion and centrifugation, literature search.....	9185
equilibrium processes, computation of single coefficient, USSR study.....	8519
new method, USSR study.....	9926
special sources of information.....	3415
stable, calculation of cascades used in separating, USSR study.....	7141
studies on bone salts.....	14852
use, large scale, for separated fission products.....	7803
see also names of isotopes, e.g., Barium isotopes.	
Isotropic point, source, determination of single scattered neutrons.....	17946
Israel:	
agricultural economy.....	11287
atomic energy cooperation for civil uses, agreement.....	6090, 14754
claims against U.S. Government by foreign nationals, payment—	
law.....	13000
reports.....	8214, 10883
declaration on provisional accession to GATT, agreement.....	6084
